## EXPERIENCE

Website development 02/2022 - 07/2022

New Scholars Education Nekemte

- Developed an online learning platform using React, Node.js, and MongoDB
- Implemented an interactive dashboard for students and educators, enhancing user engagement by 80%
- Integrated AI-based recommendation systems for personalized learning paths
- Improved platform performance and reduced load time by optimizing backend queries and implementing caching strategies

Audio Engineering 02/2022

Wmwg Nekemte

- Recorded, mixed, and mastered audio projects, ensuring high-quality sound production
- Worked with artists and producers to create immersive sound experiences
- Utilized digital audio workstations (DAWs) like Pro Tools, Ableton Live, and FL Studio
- Designed and implemented sound effects and background scores for multimedia projects

Teacher Rating System – ASTU

- A web-based platform designed to collect and analyze student feedback on instructors.

The system allows students to rate their teachers based on various criteria such as teaching effectiveness, punctuality, and engagement. It helps the university gather insights to improve teaching quality and academic performance. Developed with a user-friendly interface, secure login, and an admin dashboard for managing feedback and reports.

## SUMMARY

SOFTWARE ENGINEER ADAMA, ETHIOPIA 0961570007 : Results-driven Software Engineer with 6 years of experience in designing, developing, and maintaining scalable applications. Proficient in multiple programming languages, frameworks, and cloud technologies. Passionate about problem-solving and optimizing software performance. Strong collaborative and communication skills, with a track record of delivering high-quality solutions in fast-paced environments

## KEY ACHIEVEMENTS

### Boosted User Engagement

Enhanced user engagement by 80% through interactive dashboard implementation.

### Enhanced Platform Performance

Improved platform load times by 50% via backend optimization.

### Achieved Audio Excellence

Delivered high-quality sound for over 10 multimedia projects.

### AI Integration Success

Implemented 3 AI algorithms for personalized learning paths.

## TRAINING / COURSES
